Congratulations! You have taken a very important step in getting your business certified and ready to compete in the Federal marketplace! Included is a checklist of all of the documents you will need in order to become certified. A fillable template of each of these documents is included in this kit. Also included is a step-by-step guide through the entire process.

If you have not already registered your business with your state, it is necessary to get that done before you begin. The next step is to apply for an EIN with the IRS. If you would like assistance with this, ARC can obtain your companies' EIN for only $49.

Additionally, before you can bid on Government or Corporate contracts, you are required to obtain a Dun & Bradstreet, or D-U-N-S, Number. You cannot apply for any certifications or grants without it. ARC is able to obtain your DUNS Number in just 5 business days instead of the standard 45-60 days. If you would like our assistance with this, please contact an ARC Business Consultant who will be able to offer you a special customer discount.

We value your business and want you to know we are here to answer questions about your new company. We are available at Support@arcanswers.com and look forward to helping you COMPETE and WIN!

Sincerely,

The ARC Team
